## Expansion of Internal Capabilities and Resources

### “Renewable Energy Job Opportunities”

The Company is pleased to announce that it will advertise three new exciting renewable energy job roles in local, national and international newspapers tomorrow.

The need for additional staff reflects the continued success of Petratherm’s expanding geothermal energy project portfolio, in Australia and overseas, and in particular, the next stage in the development of the Company’s flagship Paralana Project.

The roles include;

**Project Manager, Paralana** – senior management role reporting to the Managing Director, Terry Kallis, and responsible for the successful delivery of the Paralana Geothermal Energy Project.

**Project Geologist(s)** – reporting to the Exploration Manager, Peter Reid, and responsible for the exploration and development of geothermal energy projects in Australia and overseas.

**Tenement/Compliance Officer** – reporting to the Exploration Manager and responsible for ensuring all tenements are kept in good stead.

Hender Consulting has been engaged to manage the recruitment of staff to satisfy the new roles (refer [www.hender.com.au](http://www.hender.com.au)).

Yours faithfully

**Terry Kallis**  
Managing Director
